**Southern Cross** is published three times a year—fall, mid winter and spring. Articles and photos are encouraged and appreciated. With photos, please include caption information. If at all possible, please include a photo of the author with articles. Submission deadline for the mid-winter issue is January 19, 2004. Send submissions to:

Bob Weed, *Southern Cross* Editor  
2609 Willena Drive, Huntsville, AL 35803  
256-882-9604

## Pain, Gain and Growth— A Note to Our Members

Neil Booth, Division Director

What you see is what you get! Generally this is true, but the division leadership is setting a direction that you may never see. The direction we are taking will not be visible, however, the results will impact membership. We view the division task to be the delivery of programs benefiting you, without undo effort on behalf of the general membership. There is also an old statement “that no pain means no gain.” I believe this phrase to be true. The same statement holds true if we substitute “growth” for “pain”. So, “no growth means no gain” is what we will refer to. We will be growing. Growth will be the result from the division staff, regions, patrols and membership. Let me give you a for instance. This summer, the division’s OEC Supervisor, Judi Kay-Monaghan, along with all Instructor Trainers and Instructors of Record for the upcoming refresher cycle, met in Wytheville, Virginia to plan the consistent and relevant delivery of this year’s program. Did this cause pain to membership? No. Perhaps it created pain for the Instructors of Record and Instructor Trainers for the 12 scheduled refreshers, refreshing our 1100 members. However, I choose to think of it as “growth”. The thirty-some people who attended this July meeting came together to deliver to members the most effective and efficient refresher cycle possible. You will not see the hard work and dedication these people gave to our system, but you will see the results at the refresher. Please, as attendees, take the extra step to recognize and thank the ITs, IORs and Instructors for the time and excellent service they provide to you, the membership. They endure the initial growth on your behalf. The end result is your growth or gain in knowledge and confidence.

As we progress through this season, there will be other growth initiatives taken on behalf of membership. One project that is well underway is one that is led by Morgan Armstrong, First Assistant Division Director and Division Instructor Development Supervisor. Morgan and his staff of Instructor Trainers, Mentors and Instructors have poured the foundation for future growth. Read his article and you will see what we are talking about. This project requires the growth initiatives of your Region Instructor Development Administrators and Mentors as they begin to work with membership by developing a larger cadre of Instructors who will continue with the process of becoming discipline-specific instructors. What pain will you endure? None. What will you see? The end result will be the effective and efficient delivery of instructors and educational programs to membership.

The second project we are working on is the formalization of the Senior Coordinator positions in each of the five regions. This will be led by Virginia Region Director Bill Smith. Our growth initiative here is to put in place a unified system that provides all the information to all levels of the organization. Have you ever noticed any confusion when it comes to the Senior Program process? How do I get into it? What do I need to do? When and where are the events to be held? These are just a few of the concerns. Your five new Senior Coordinators will have all the answers by the end of the season. Once again, growth will prevail with no pain endured on membership's behalf. You should only see the gain of an efficient and effectively delivered program.

The last program we are working on is a project to determine the future of the Student Program. The Division Co-Chairs and Division Supervisors of this discipline and project are "T" and Peg Harris. They are to research this project and provide their findings, based on input from Patrol Representatives and Student Patrollers, to the Executive Committee at the Spring Officers Meeting in May 2004. The Chair's recommendations will be for enhancement or disbandment of the program. We encourage all concerned parties to give great cooperation and thought to this task. It will be membership's responses and actions that will lead to the recommendation of this program's future. This could or could not be considered a growth initiative, depending on how you view it. I see it as growth since we cannot let a program sit dormant and call it growth. Growth moves forwards, sitting still in a dormant stage is the same as moving backwards!

I have tasked the Division Staff with a lot to accomplish this year. I guess it comes with any new Division Director and Staff. We are here to support you, our members. We can only do this based on your input and requests. If there is something you like, or do not like, let your Patrol Representative know. They in turn will pass this along to the proper person in the chain of command. Remember, this is our system, not any one person.

### **Accomplishments to date:**

1. We had an extremely successful OEC IT/IOR seminar in Wytheville, VA.
2. We had an informative Fall Officers Meeting with excellent briefings by:
  - a. Nici Singletary, National Board of Director Representative who told everyone about the positive direction of the Board with regards to the "core values", "vision", "mission" and the membership survey that is about to be preformed.
  - b. Mark Dorsey, Marketing Director, NSP headquarters who demonstrated the web page and the tools it provides; a discussion of the marketing of our OEC program; our national marketing partner programs.
3. Your Board of Directors finalized and approved ten bylaw amendments (adoption of a proposal form for all amendment changes; membership's right to vote through your Patrol Representative with 60 days advanced notice; one vote versus two to adopt changes; removal of officers; committees of the board; quorum and voting; addition of notice, presumption of assent, informal actions and electronic meetings; election process for Division Director; gender neutral wording; title change to add Region Directors Assistant).

### **Request to membership:**

1. Visit the NSP web page at [www.nsp.org](http://www.nsp.org) and learn how to use this tool. Make sure you check your personal page and update any information that is old. It is important to have your phone numbers, address and email listed correctly. This is the best reference source the division has.
2. Visit the "What's New" section on the site.
3. When the membership survey comes out, please take the time to respond. This is the first strategic initiative of the new National Board. It is membership only based. Here is your golden opportunity to have your voice heard! It creates growth!

So now let us all move along with our refreshers and get our bodies and minds ready for the upcoming season. We can only hope and pray that we have another season like last year. It was a wonderful season for the resorts, our snow sports public and us. It goes without saying, we need to have fun and also enjoy what we do. Have a wonderful season and please, consider getting more involved at your patrol, in the region or division. Consider becoming an instructor and help others gain broader knowledge while lightening the workload of the current staff. The more the merrier! New people means growth for our system! Yes, what we all see is what we all get! Yes, what we put into our efforts is what we get out of it! Yes, no pain means no gain, however, no growth means no gain too! Let's grow!

## Reports, Photos and Awards

*Morgan Armstrong*  
*First Assistant Division Director*

**LINE OFFICERS' REMINDER:** While this year the line officers all report to the ADD North and ADD South in the chain of command, please remember the First ADD has to gather all of the End of Year Reports and make the division report to the division director. This is a reminder to please begin that process now, so by the time you need to write the report you will have most of the information.

**PHOTOGRAPHS:** I am asking each Patrol Representative to take five pictures this year and send them to the Division Historian. I think it would be great if we could have a group shot of each patrol (Refresher is perfect for this) and three or four action shots during the season. One of the candidates and one of training would be nice. One of a typical patrol day and perhaps one of the patrol room would be interesting for us all. If you get into this and send ten or fifteen, we will thank you bunches. Program Supervisors, we ask that you send two photographs for the scrapbook. Indicate what they are, who is in them, where they were taken and when they were taken. Think what fun it will be for us to dig them out thirty years from now and look at how young the current division officers looked when they were under seventy years of age.

**AWARDS:** Start now to work on the division, region, patrol and individual awards. Saying thank you for all the hard work of those who put this division first and make it the best in the system is just nice to do. Don't let down the patroller who makes your program or patrol outstanding. If you need help, John Dobson or I will be happy to lend a hand.

## Mourning

*Dennis Slagle*  
*Assistant Division Director—South Area*

Being from the south and patrolling in the now defunct Dixie region, I mourn that it—the name—no longer exists. The name Dixie Region was dropped and the region split into the section names—Smoky Mountain Region and Deep South Region. I was really fond of the name Dixie, as the name seems to epitomize the south. Now that there are two geographic areas in Southern Division (north and south), with Blue Ridge, Deep South, and Smoky Mountain Regions composing the Southern area, it would somehow seem righteous for “Dixie” to fit in somehow. Maybe I am just sentimental, but when I think of “South”, I always relate it to “Dixie”. It is also comforting to know that “old times there are not forgotten”.

I am looking forward to another good ski season for 2003-2004. Every indication is that it will be. The Southern Area is off to a good start this year with some outstanding leadership at the helm in each region. I want to thank the new region directors Sylvia Talley in Deep South, Mike Harris in Blue Ridge, and Richard Boyer in Smoky Mountain for accepting these positions and all the responsibilities that go along with them.

If you haven't done so already, please check the Southern Area Region calendars for upcoming events in your region. They are listed in this *Southern Cross* edition, but they can be observed at any time by accessing the Southern Division web site at [www.nsp.org/divisions/southern/](http://www.nsp.org/divisions/southern/). All calendars and directories are there. If you are interested in attending tests, clinics, courses, or to know when your refresher is scheduled, it is all there. If you see an event that you want to participate in, be sure to mark it down on your calendar. Be sure to contact the “Contact” person listed well ahead of time so that you are not left out and to make sure courses are actually held. Most instructors have a deadline of about a month ahead to sign up. This is to ensure there are enough students to have the course and to have enough time to arrange everything.

Have you signed up to activate your membership to the division web site? When you do, you can update your own contact information and keep it current, so that you don't miss any correspondence. I go to the site to get email addresses with which to contact people.

Look to the web site for any information. Let us know if there is anything not there that you need or would like to see there. Again, if you have not gotten a password, please apply for one, the directions are there at the bottom of the Southern Division main page. Just remember to keep your password somewhere you won't forget it.

I look forward to seeing everyone on the slopes this year.

## Notes From The North

*Jan Starr*

*Assistant Division Director—North Area*

I sure hope everyone stayed dry, mold didn't set in, and your arthritis was under control during our wet summer. All of the refreshers should be planned and underway by the time you read this. The summer OEC refresher-planning meeting was a great get-together with lots of ideas and planning so that all refreshers will be similar again this year. Thanks to all that took off a weekend in July to attend this important meeting. Refreshers couldn't be what they are without the input from instructors.

The winter calendar has been revised with some new additions. One of which is a Mountain Training and Rescue (MTR) level 2 class. There are only a few MTR, Avalanche, and PES classes offered. Remember there is a \$10 course fee for each.

Please plan ahead for these, as participation is important. Supervisors for these disciplines need to keep in touch with the area Patrol Reps on these courses, and I would also like to see the Patrol Reps be pro-active in the marketing of these. Remember these are all electives for the senior program. We are also looking for patrollers interested in becoming instructors for these three disciplines. More instructors mean more courses could be held in your areas. We are planning on more instructor development courses and making mentoring easier to go through. Please join in, give us a hand and become a part of the instructor team!

And now I have to close on a sad note. I would like to thank everyone for their support to myself and to the Snowshoe patrol in the loss of Brad [*Short*] and Tony [*Petrocelli*]. It is wonderful to know we have so many other friends in our patrol family.

### *From the Regions...*

## Virginia Region

*Bill Smith, Virginia Region Director*

**The Virginia Connection!!!** Well, here it is August already and the summer is almost gone. Believe it or not, it's time to start thinking about a new ski season as we all get ready to plan and schedule our refresher programs. I trust that each of you have had an opportunity to do some fun things this summer and maybe even get in a little vacation time somewhere delightful.

From everything I'm hearing the summer has been a very busy time for all of the patrols in Virginia. There are many exciting, new, and fun things that I will report on in this edition of *Southern Cross*.

Over at **Bryce**, **Bob Mecaughey** reports that "this coming ski season, Bryce will feature for the first time an 800 foot, three lane tubing run. Also, one of our slopes, Revenuers Run, has been widened to accommodate a more versatile and challenging terrain park." In early June, the patrol celebrated a great season with their Annual Patrol Picnic. It was reported that a good time was had by all.

We have great news to report to you concerning **The Homestead Ski Area**. After being closed last season, Patrol Rep, **Jerry Taylor** is reporting that The Homestead will re-open this season and recently announced several major improvements to the ski area. They include:

[Click to view Photo Album](#)

Ground Breaking on Major Renovations at The Homestead: Michael Valach, Director of Outdoor Activities, Gary K. Rosenberg, President and Chief Executive Officer, Cindy White, Ski Area Manager, Fred Reese, Vice President of Golf and Grounds Maintenance

The construction of a new 4.3 million gallon retention pond that is to be utilized for snowmaking. It will be located near the falconry barn with the water being pumped to the ski slopes. The pond is to be aerated to chill the water.

Secondly, there will be a major addition to the snowmaking capabilities that will include 20-30 new snow blowers. In order to move the water to the guns and blowers, there will be a completely new pumping system installed. Lastly, there is to be a lift control system upgrade.

The above upgrades are scheduled to be completed by November first, prior to this year's season opening. Mountain management further reports that following the completion of these new projects, snowmakers will be able to be cover the mountain with 18" of snow in just 72 hours!!! This a very exciting time for The Homestead—especially for the ski patrol.

**Bartek Drewnowski at Massanutten** has

reported that their resort is replacing the old #4 lift that services Southern Comfort, with a new, fixed grip, quad chair. It is designed to move more people more efficiently uphill. He further reports that they will be getting a new grooming machine along with the addition of twenty new tower mounted fan guns. It certainly sounds like lots of snow happening at Massanutten this season!!!

**Wintergreen** began their summer by combining some learning with a patrol picnic. Both were held at Lake Monocan. The morning was spent re-certifying a number of patrollers in CPR. That session was followed by a patrol picnic. There were plenty of food and fun activities for all to take advantage of.

**Tucker Crolius, Wintergreen's PD**, reports that they are completing the snowmaking automation that was begun last season. Air/water mixture is computer controlled and adjusted automatically based on weather sensors located all over the mountain. The prototype system worked very well last season. Also, we are widening Upper Wild Turkey (skier's right) all the way over to the lift towers. This will be our dedicated bump run this season.

As you can easily see, a lot is happening in Virginia in preparation for the new ski season. It's hard to believe that in just a few short weeks we will all be hard at work getting our refreshers completed and waiting for the flakes to start flying.

In closing, I would like to take this opportunity to encourage everyone throughout the Division to take a look at the Division calendar and find an education program that interests you and take advantage of it. Our instructors all work very hard to provide our over 1,100 patrollers with quality education programs.

See you on the slopes!!!

## Blue Ridge Region

*Mike Harris, Blue Ridge Region Director*

Welcome to the upcoming ski season which is just around the corner.

OEC Refreshers are coming up right away and everyone should have received their 2003 Cycle B Study Guide. Please have your Scenario Discussion Form questions filled out when you arrive. Also we are asking that you stay with your assigned groups so that each group has an equal number of patrollers. One of the reasons for this is the instructors are working hard to make the refreshers more informative and pleasurable. Matching up in new groups will almost always assure more and new input.

All four areas have had lots of rain this summer so the water level should be great for making snow. This means we'll all be ready when the cold weather gets here. I personally am looking forward to visiting all four areas and skiing with friends I have made over the years.

I would like to encourage anyone thinking of attaining senior status to keep in mind that we now have Michael Fletcher as Senior Coordinator and other outstanding people to work with in this effort. Also, I want to remind everyone that once again our Blue Ridge Region will be hosting the Spring Convention and Awards Banquet. This will be held at the Broyhill Inn and Conference Center in Boone on May 14th and 15th, 2004. Please mark your calendars. If you have attended before, you'll remember how much fun it can be. If this is your first, it's a great opportunity to enjoy being with patrollers from your own mountain as well as patrollers from the three other mountains in our region and all the other regions in our Division.

## West Virginia Region

*Jon Dragan, West Virginia Region Director*

Timberline Ski Patrol (TSP) has a new Assistant Patrol Representative for Operations— Darren Bennett. The TSP Summer meeting was a huge success with the CPR class and a work party to freshen up our warming hut. Congratulations to TSP Member Scott Frankhauser who has been named as Assistant WV Regional Director. Scott is very active in the TSP patrol as an OEC and S&T instructor, a Senior candidate, a member of the TSP Board of Directors, and editor of the TSP "Mountainside News". Scott also attended PowderFall in Snowbird, Utah this past year. Remember, our TSP Pre-Refresher is September 20, 2003. Refresher is October 18, 2003, and On-the-Hill

Day is October 19, 2003.

Snowshoe has been busy widening trails and adding snowmaking to their main slope. Many are wondering why as they had 270 inches of natural snow during the last season!

For years the Ski industry in West Virginia has been able to tap into the labor pool that exists here due to the Whitewater rafting industry. I would venture to say that every ski area in the state has at least a few patrollers that take their OEC and patrolling skills to the river in the summer.

Working as a River Guide in West Virginia requires similar qualifications to those of a Patroller. You must have a working knowledge of the area (rivers) you are operating on, be trained in rescue techniques as well as first aid and professional rescuer CPR. Basic first aid is the minimum requirement to become a river guide. However, outfitters have always encouraged guides with the desire to do better, to take a higher level of first aid training. In past years outfitters have looked to EMT, or WFRA classes to provide the additional training. OEC however is now becoming the course of choice. The availability of instructors, outfitters facilities for classes and students for a course has provided enough interest to teach a spring OEC course in the New River area for the past several years. Instructors from Snowshoe and Winterplace worked together to put on the course. Jim Maxwell (Snowshoe) and Bud Frantz (Winterplace) coordinate the logistics of working with the NSP and West Virginia Professional River Outfitters Association to offer the courses. This partnership has not only helped us keep our instructors skills up but serves as a great way to identify, recruit and train new patrollers. This all happens during a time of the year when most patrols are quiet and teaching skills get rusty. Class this year was held at North American River Runners and had twenty plus students. There is no question we will see several of these candidates wanting to join our patrols this fall. Be it frozen or liquid, see you on the H2O.

Many thanks to all for your inputs which have made my job much easier.

## Smoky Mountain Region

*Richard Boyer, Smoky Mountain Region Director*

How have the changes in our Southern Division affected everyone in the Smoky Mountain Division?

What does the new organization mean to us? First let me explain what is new. We in the Smoky Mountain Region consist of three areas, Wolf Laurel, Cataloochee, and Ober Gatlinburg. Lee Wilkinson from Wolf Laurel is the new Assistant Region Director. He and I are new. I am sure familiar to many of you patrollers already. He and I will split up the duties necessary to the Region. Please refer to the Region roster for others who are handling the various line positions.

How is this different from last year? Last year the Dixie Region consisted of two Sections—Smoky Mountain and Deep South. There is no Dixie Region anymore, and its two Sections are now Regions.

The bottom line is, there are only a few changes that will affect the patroller in our Region. Neil Booth has moved on from our Dixie Region Director to our new Southern Division Director, but even that will not mean too many changes, as he will still patrol out of Cataloochee and you will see him as he makes his rounds to each of the ski areas. Other than that change and a few newer faces, things will be run similarly to last year. We have two new Patrol Representatives, Armand Mendez at Ober and Bob Mitchell at Wolf. You will see more of me. Lee will also be available to help in anyway we can.

There are two things, among others, I would like everyone to think about and work on in the coming year: 1) Communication throughout the Region from the patroller up and down the line. Recent surveys seem to be indicating information is not getting to the ski patroller level within the NSP. They say too much information stops at the patrol representative level and doesn't get to the patroller. If this is in fact the case, I'd like to work towards changing it. 2) Let's find ways to increase communication and cooperation between the paid and volunteer patrols. The main difference between the two groups are their respective times on the slopes. We all need to find ways to draw these two fine groups closer to each other and to work together.

We'll see you on the slopes this year.

## Deep South Region

*Sylvia Talley, Deep South Region Director*

The hills are alive—with the sound of hammers and power tools in Alabama and Georgia. Over at Cloudmont, the old camper trailer will be replaced with a new, and much needed, patrol hut. At Sky Valley, a project initiated by the patrol will result in a patrol shack at the top of the mountain. Thanks to Chris Polhemus for designing the building; and to Rita Kyle, who is appealing to a corporation to donate lumber for this construction. Scott Rao, Sapphire Valley Mountain Manager, has announced planned additions to the area in time for the 2004-05 season—a new chairlift and a tubing park.

After Larry Bost's article about the Sky Valley patrol appeared in the Summer issue of *Ski Patrol Magazine*, two patrollers who have moved to Georgia asked to join the Sky patrol. Jim Petersen from Texas, and Jeff Minter from New Jersey, are both Senior patrollers. Both are OEC instructors. In addition, Jim is an S&T instructor; and Jeff is in the mentoring process for S&T instructor. We welcome them to Deep South Region!

Over in western North Carolina is a jewel of a resort, Sapphire Valley. The original inn was built in 1896. Known for its comfortable lodging and fabulous cuisine, it attracted visitors until it was demolished in 1986. According to Tommy Godwin, former Patrol Director for Sapphire, the ski area was built and open for operation for the 1964-65 season. The ski area closed for a few seasons in the early 70's, but re-opened in 1975. Sapphire presently serves a skier population made up of local skiers and visitors to time-share condos.

The long-time patrol dissolved in 1998, and the following year Ben Tholkes and his wife, Jane Sullivan, were recruited to come to Sapphire from Cataloochee. Ben has served as Patrol Rep ever since. When I first met this energetic couple, Jane was skiing with their son Landon in a backpack. Their skiing family now includes son Braden.

In a recent conversation, Ben related how he has combined his love of skiing and mountains into an enviable professional life. A Minnesota native, he has been an NSP member for 25 years. Ben started his career in 1978 as a National Park Service ranger at Mt. Ranier, where he served as the Lead Tech for seasonal staff. This involved him in all aspects of search and rescue—technical rescue, vehicle crashes and searches for lost persons. Then, in 1985 he left NPS and began working as a pro patroller at Welch Village near Minneapolis/St. Paul, while pursuing an undergraduate degree in business. He wryly adds that first aid was one of the last courses that he took. According to Jane, she met Ben while they were both members of the patrol in 1989. Ben received his PhD. in Parks and Recreation from the University of Minnesota. Soon after, Western Carolina University recruited him for their Parks and Recreation program. He was also lured to the North Carolina mountains by the Great Smoky Mountains and the national forests. Ben instructs an OEC course each fall at Western Carolina University. Next time you encounter this soft-spoken patroller at ski patrol meetings, ask him to share stories about his mountain adventures.

## **Certified Program Update**

*Leslie Carter, Certified Program Supervisor*

The National Ski Patrol's Certified Program was developed as a way to recognize and identify motivated, highly skilled and knowledgeable individuals in the NSP. Much like other professions, an extensive peer group evaluation of an individual's knowledge and skill is required to become 'Certified'. Upon completion of the program, successful participants are assigned a unique "Certified Number".

The first Certified Exam in the Southern Division was held at Wintergreen Resort, VA in 1979 with visiting evaluators from the Eastern Division. Phil Birdsong, Wintergreen's Patrol Director at the time, became the first "Certified" patroller in the Southern Division. The exam is now held each March at Snowshoe Mountain Resort,

West Virginia and consists of five modules requiring 18 separate knowledge and skill evaluations. Candidates are given three years in which to complete all evaluations.

**EXAM 2003**—On Saturday, March 21, 2003 the Southern Division Certified Program welcomed it's newest member, Karen Sealock of Snowshoe Mountain Resort. In spite of a severely broken arm sustained during the 2001-2002 season, Karen completed the exam in the allotted three year period to become Certified Patroller Number 610.

**EXAM 2004**—The current Certified Candidate Class consists of six individuals, four of whom are expected to complete the process this year. With this in mind, one of our primary goals for the 2003-2004 season is to have at least three new candidates begin the Certification process.

Three clinics will be offered at various locations around the Division—Virginia (Massanutten), West Virginia (Snowshoe) and Smoky Mountain (Ober-Gatlinburg). Please check the Division Calendar for dates and contact information. The goal of these clinics is to provide advanced training for potential candidates as well as to increase the knowledge of other interested individuals. This is a great way to increase your overall knowledge of the "Big Picture" of Ski Area Management. Topics include Snowmaking, Grooming, Signage, Lifts and Lift Safety, Ski Area Management, Avalanche Beacon Searches, Advanced Sled handling techniques, and Advanced OEC scenarios. I look forward to seeing lots of new faces!!

[Click to view Photo Album](#)

Congratulations Karen!! Southern Division's newest certified patroller is Karen Sealock of Snowshoe (shown here with victim Emily Scheels of Massanutten at the 2003 Certified Test).

## **Women's Toboggan Clinic**

*Tim Asbury, Transportation (Toboggan) Supervisor*

At the close of the Women's Toboggan Clinic last ski season the comment that was most often overheard was, "When are we going to do this next year?" Well, I wish I had definite dates and location but I am still working on getting Deb Daniels from Vermont to come down and teach another one. When I talked to her at the beginning of September she was going to take a look at her schedule and firm up dates with me.

I anticipate the clinic happening before Christmas and look to do it this year in the Boone area of North Carolina. The clinic is open to all levels of patrollers—the only requirement is that you must have two X chromosomes. This course will be registered as

both a toboggan enhancement seminar and a skier enhancement seminar, which also count as senior electives. I wish I had definitive information at this time but as soon as I know something I will send out notification to all patrol reps. Also check the calendar posted on the Southern Division web site at [www.nsp.org/divisions/southern/](http://www.nsp.org/divisions/southern/).

**Toboggan Enhancement Seminar (TES)** as a proficiency check off tool:

We all have to get checked off once a season for proficiency in our ski and toboggan skills so why not make it a learning experience? Patrol reps, consider scheduling a TES as both a learning tool and a chance to get your patrollers checked off for proficiency. It also buys the patrol co-insurance with NSP because the proficiency check off is now occurring as part of an official NSP course. Any toboggan instructor can register to run a TES course.

## Leave No Candidate Behind

*Dave Parker, PSIA Ski Proficiency Supervisor*

Many states have adopted the “LEAVE NO STUDENT BEHIND” policy as a basis in their school systems. As many of you know, this is a law that requires schools to insure that every student acquires the necessary skills before being allowed to graduate to the next level, and it identifies any deficiencies that a student might have and provides additional instruction to correct those deficiencies.

This policy parallels the philosophy of the SKIING PROFICIENCY PROGRAM, i.e. to “LEAVE NO CANDIDATE BEHIND”. The Objective of the Program is clear—to provide effective and safe skiing and snowboard proficiency training to the candidates of the Southern Division’s ski areas in order to improve their skiing and snowboard skills. Similar to the school systems, this training is a step-by-step, level-by-level instruction that builds on previous skills, and guides the candidate from any level of proficiency to the level required to pass the Basic Patroller Evaluation. Deficiencies are addressed, which sometimes includes modifying “old habits” to create more effective and efficient skiing and riding.

It is also the goal of this program to have available skiing and snowboard instructors at every ski area in Southern Division. These instructors will be conducting skiing and snowboard proficiency training sessions for all candidates at their respective ski area. Each of the skiing instructors have been trained, tested and certified by the Professional Ski Instructors Association (PSIA) and the snowboard instructors have been trained, tested and certified by the American Association for Snowboard Instructors (AASI). All ski and snowboard proficiency training is conducted in accordance with the proven procedures of PSIA and AASI.

Here is a list of the ski areas in Southern Division, and the corresponding instructors. Please note that the first instructor listed for a ski area is the Designated Instructor, and this instructor has overall responsibility for the skiing or snowboard proficiency training at that ski area. Also please note that instructors listed as “Associate Instructor” have not yet achieved a PSIA Level I certification, however they will be able to obtain this certification early in the ski season, and will be able to start conducting candidate training sessions immediately upon completion.

### **Virginia Region:**

Wintergreen – Brandon Dean, Trish Cuthbert  
Massanutten – Charlie Coleman, John Shaffer  
Bryce – Randy Trow (Associate Instructor)  
Homestead – Alan Ferris  
Snowboard Instruction - Rick Boerschel

### **Blue Ridge Region:**

Sugar Mountain – Mike Milligan, Howard Tilley  
Ski Beech – Mark Pipkin, Ron Clyde  
Appalachian Ski Area – Dave Jamison (Associate Instructor)  
Hawksnest – Andy Moody (Associate Instructor)  
Snowboard Instruction – Clark Bell

### **Deep South:**

All Ski Areas – Gordon Pettit, Brent Bowman  
Snowboard Instruction – Clark Bell

### **West Virginia Region:**

Timberline – To be determined  
Snowshoe – Merlan Jackson (Associate Instructor)  
The New Winterplace – Kent Roberts  
Snowboard Instruction – To be determined

### **Smoky Mountain Region:**

Ober Gatlinburg – Armand Mendez  
Cataloochee – Dave Parker, Neil Booth, Wayne Morgan  
Wolf Laurel – Phil Bentley, Lee Wilkinson, Jamey Piercy  
Snowboard Instruction – Clark Bell

All of the PSIA and AASI certified instructors associated with the Skiing and Snowboard Proficiency Program will be conducting training sessions with candidates this coming season to improve the proficiency of their skiing or riding. This is a critical part of bringing candidates up to the Basic Patroller Level, thereby resulting in new qualified patrollers for our ski areas. Should you have any questions or comments concerning this program, please contact the following:

Dave Parker – Program Supervisor at [dfparker@bellsouth.net](mailto:dfparker@bellsouth.net)

Clark Bell – Snowboard Proficiency Supervisor at [2ndarymodern@charter.net](mailto:2ndarymodern@charter.net)

John Shaffer – NSP Southern Division Ski School Director at [John.Shaffer@cfsc.army.mil](mailto:John.Shaffer@cfsc.army.mil)

Ron Clyde – Assistant Program Supervisor at [Ronald.G.Clyde@sealedair.com](mailto:Ronald.G.Clyde@sealedair.com)

## Southern Division Telecommunications

*Rick Woodlee, Communications Supervisor*

Well, time just rushes by and the next thing you know it's time to dig out the winter cloths, skis, fanny packs, and radios. Looks like everything on this list needs attention, especially the radios. My suggestions are as follows:

1. Clean the radio's exterior.
2. Open the battery compartment, take the battery out, and look for corrosion.
3. Clean the battery compartment and the battery contacts.
4. Put the battery back in the radio if it is not corroded. If it is corroded, have it replaced
5. Recharge the battery for 14 hours.
6. Cycle the battery by turning the radio on for 8 hours and then charging it back up for 10 hours.
7. If the radio does not work OK, take it to a repair shop now, before the season starts. This gives the technicians time to order and receive parts and to fix the radio to like new condition.

A few notes on radio communications and operations:

1. Never use profanity or improper communications on the air.
2. Never interfere with other users of the frequency. (E.g., Rescue and EMS units, ambulances, law enforcement, etc. This is the quickest way to get a pink slip from the FCC.)
3. Identify yourself by saying your call letters at the end of your conversation or every 30 minutes, whichever comes first.
4. Post a copy of your FCC license in the patrol room.
5. Be responsible and clean and recharge the radio after use.

The FCC is now charging fifty dollars for license renewal. The licenses are good for ten years. Obtaining a new FCC license costs several hundred dollars at this time. Thus, keeping the license renewed even when we use the mountain's frequencies only for on the hill use is a smart thing to do. One can use the NSP frequencies during training, examinations, searches, intra-communications with other patrols, rescue and search teams, or anything in the special emergency realm.

This would be a great time to purchase your own radio for use in patrol or special emergency operations. Ski season and Christmas is just around the corner. There are a number of good Motorola, Relm, Kenwood, etc. radios on the market. I have found the Kenwood radios to be very practical on the hill. There are a number of folks who would like to upgrade their radios. However, they need to sell their older Henrys, Jobcons, and other types or radios in order to assist in paying for a new one.

Please contact me if I can assist you in any of your telecommunications programs. Phone: 828-693-1554  
[N4FAT@juno.com](mailto:N4FAT@juno.com).

## What is Mentoring?

*Morgan Armstrong, Instructor Development Supervisor*

What is Mentoring? I asked that question to the Southern Division Officers prior and during the last Fall Officers' Meeting. Here is a quick summary of what we all decided.

Mentoring is the process the National Ski Patrol uses to take a student instructor, who has just graduated from the Instructor Development Course (formerly Phase I), determine the student's needs and fashion a personal program to get the student instructor ready to teach at the quality level expected by the National Ski Patrol, the Southern Division and the Program Supervisor for any particular program. This applies to programs in the disciplines of Instructor Development, Outdoor Emergency Care, Avalanche, Mountaineering, Ski and Toboggan and any other educational program in the system now or in the future. It is *not* a process of making the student instructor jump through a bunch of hoops!

Adult learners want to achieve the desired goal without wasting time. Mentoring begins when the student teacher is assigned a mentor by any Program Supervisor. The first step is when the mentor analyzes the needs of the student. The mentor develops the most efficient program to certify the student and proceeds with all deliberate speed. When a student needs more help, the mentor modifies the program to help the student meet the quality goals. When the student is ready to be certified the mentor sets up a meeting with an Instructor Trainer and the student is passed or returned for more mentoring.

This is a good way to accomplish our goal of getting a new instructor. A new student instructor without experience may need several practice sessions and several real teaching sessions with the mentor assisting. A student instructor with years of experience from teaching successfully with the Avalanche Program or the Outdoor Emergency Care Program who wants to begin teaching Mountaineering might be teamed up with a mentor and pass in one session. If the mentor knows the person, has seen the teaching skills and is assured of quality with this person using the National Ski Patrol Six Pack Method, this mentor might set up one session with the proper Instructor Trainer and the certification could take place in one session. We are not saying you should cut corners. We are saying you should not have to go around a five mile lake by forcing the student to walk only clockwise when the student can reach the same spot by walking counterclockwise for 50 yards.

What is mentoring? Mentoring is getting the job done with quality but not making it an ordeal.

I would now like to congratulate the following patrollers who have completed the mentoring program and advanced to the level of instructor in the Instructor Development Program of the Southern Division. These instructors are all in the West Virginia Region and have achieved this level because of the hard work of Jane Poundstone and Martha Rine with Janette Bennett and Greg Rash with the remainder of the new instructors. This was done under the supervision of Melanie Wolford, the former Instructor Development Supervisor for Southern Division. These new instructors are Janette Bennett, Jon Dragon, Bud Frantz, George McMurray and Aletha Stolar.

I am also appointing the Instructor Development Region Administrators to the position of Instructor Trainer as of September 1, 2003. They will be Gregory S. Rash (West Virginia), Ken Buckner (Virginia), Denise Bost (Blue Ridge) and Ken Collins (Smoky Mountain & Deep South).

## Mountain Travel and Rescue

*Bob Chatman, Mountain Travel and Rescue Supervisor*

Southern Division Mountain Travel and Rescue is alive and well. This year we have a MTR Course scheduled in Western Carolina in March and an MTR2 in West Virginia the end of January. If there is enough interest an MTRF/MTR1 will be scheduled in the spring in the Northern half of the Division. If not it will be scheduled in the fall of 2004. For next season an MTRF/MTR1 will be planed at different ends of the Division one in the fall and one in the spring. These dates will be announced prior to the Spring Meeting. There will be an MTR2 scheduled for every other year unless there is greater interest. All courses include classroom as well as field work.

In reviewing the MTR Course outline it appears that MTRF and MTR1 Courses can be held at the same time and location. The MTRF students would be excused several times during the day and they wouldn't be able to participate in the overnight which is the most fun part. We will run this course next fall in West Virginia. There are overviews of the Courses on the NSP Web Site.

We have four new MTR instructors in the Southern Division. Their names will be announced as soon as they are cleared with the National Program Director.

## OEC Program

*Judy Kay-Monaghan, OEC Program Supervisor*

Once again we will meet for our fall OEC refreshers. Check the division calendar for refresher 2003 dates, times and locations. The refresher will be a very busy day, but one loaded with important information, a chance to see old friends and an opportunity to have some fun.

The OEC instructors and instructor trainers have been busy over the summer planning your refreshers with new and creative lessons. I want to thank all of the instructors, instructor trainers and regional administrators for their dedication and hard work, which make the refreshers in the Southern Division some of the best in the nation.

In order to register for the ski season, dues must be paid, you must successfully complete the OEC refresher, and either complete a CPR course or refresh your skills. Additionally, the Refresher Study guide must be completed prior to the refresher and turned in to the instructor of record at the refresher you attend. The study guide can be found on the NSP web site. You must also bring your NSP, CPR, and OEC cards to the refresher.

If you are unable to attend your patrol's refresher and plan on attending another, be sure to obtain a copy of your attendance from the Instructor of Record (IOR) and return this form to your patrol director, to ensure proper NSP registration. Be sure the IOR from the refresher you are visiting places your name on the supplemental roster list that is sent into national.

As you plan for your refresher, take a look at the NSP website and the new information about this year's refresher to help you study and update your skills. If you are planning on participating in the Senior program, check the clinic and evaluation dates in your region, and schedule your patrol days accordingly.

In advance, thanks for your cooperation and please be sure to fill out the refresher evaluation in the back of your study guide, leaving it with the IOR of the refresher you attended. I am looking forward to a great fall refresher and ski season.

## Treasurer's Report

*Jim Underwood, Southern Division Treasure*

Listed below is a summary of the Southern Division's Treasury report for last season. If any member wishes a detailed copy of this report please contact Jim Underwood, 865-483-3675, [jnu@icx.net](mailto:jnu@icx.net), or 109 Wildwood Drive, Oak Ridge, TN 37830 for a mailed or E-Mailed copy.

## Are You A "Northerner" Or "Southerner"?

Mary Underwood, Patroller Enrichment Supervisor

We are not fighting a civil war in Southern Division but we have reorganized the Division. We now have a Northern and a Southern Area as our major operational units instead of the four regions. If you would like to know more about the new organization of Southern Division and of NSP national reorganization, come to the next Patroller Enrichment Seminar. More information about the four components of this course is offered on our Southern Division website. The next PES is scheduled on December 14, 2003 at Winterplace. Cindy Huffstutter will be the instructor. Contact her at 2601 Park Center Dr., Apt 210,

Alexandria, VA 22302, 703-567-0742, e-mail [chuff@erols.com](mailto:chuff@erols.com). Pre-registration and payment of course fee (\$10) is required before the course date

## Nordic Program Expands Clinic Schedule

Penny Dimler, Southern Division Nordic Program Supervisor

Southern Division is offering two Nordic events for the benefit of patrollers who wish to expand and enhance their skiing skills during the 2003-2004 ski season. Both events are open to patrollers of all skill levels. Southern Division Nordic patrollers also are invited to participate in Eastern Division's Nordic Fest and Senior Evaluation.

**Telemark Clinic;** Try free-heel, downhill skiing at the Winterplace, West Virginia, Telemark Clinic on Sunday, January 4. We are borrowing an instructor from the Whitegrass Nordic Center Ski School and are in the process of lining up rental gear. To

register or get more details, contact Tom Wagner, Winterplace Patrol Representative, 304-469-8039,

[wagnertew@earthlink.net](mailto:wagnertew@earthlink.net).

**Nordic Seminar:** Nordic patrollers and Nordic wannabes will gather at Whitegrass, West Virginia, for the fourth annual Nordic skills seminar, January 24 and 25, 2004. On Saturday, the seminar will feature search and rescue, toboggan building and transport, navigation, and ski skills. The bonus ski clinic on Sunday is a half-day lesson on skate skiing guaranteed to shrink your buns. We will lunch on the mountain and dine afterwards in the Whitegrass Cafe. Check the Whitegrass Web site, [www.whitegrass.com](http://www.whitegrass.com), for a list of lodging available in the Canaan Valley, West Virginia, and make your reservations early.

To register for the clinic or get more details, contact Penny Dimler, the Division Nordic Supervisor, 703-425-2736, [penny01@cox.net](mailto:penny01@cox.net).

**Eastern Division Nordic Fest**, January 30-February 1, 2004, is sponsored by Southern NY Region and Eastern Division and hosted by Mountain Trails Nordic. Lodging is part of the package and it all takes place near Hunter Mountain, NY. This is a Ski Enhancement Seminar and Toboggan Enhancement Seminar similar to the Southern Division Nordic Seminar. If you are interested, contact Karl Kopans, 914-962-3511, [karlkopans@aol.com](mailto:karlkopans@aol.com).

**The Eastern Division Nordic Evaluation** is scheduled for the weekend of February 28 and 29, 2004, at Highland Forest, NY. An invitation has been extended to Southern Division Patrollers. Contact Pete Snyder, Eastern Division Nordic Program Supervisor, 570-689-6173, [psnyder@ptdprolog.net](mailto:psnyder@ptdprolog.net).

Southern Division patrollers will be warmly welcomed at the Eastern Division events.

Additional information about all events will be posted on the Southern Division Web site.

## Spring Meeting, Instructor Update, and Awards Banquet 2004

The Southern Division Spring Meeting and Awards Banquet as well as the Instructor Update will be held Saturday, May 15<sup>th</sup> 2004 at the Broyhill Inn and Conference Center in Boone, NC. This is not just an officers meeting—all patrollers and their families are welcome and encouraged to attend.

Special guest speakers, hands on instructor sessions and a Blue Ridge gala are in the works! It will be a chance to celebrate the hard work of each one of you. Mark your calendars now and watch for details in the Mid-Winter issue of *Southern Cross*.

[Submitted by Susanne Wise]

## William Bradford “Bubba” Short (1953-2003)

*Love like you’ve never been hurt,  
Dance like no one is watching,  
Live like there’s no tomorrow.*

On Saturday July 19<sup>th</sup>, Snowshoe Mountain Resort lost a dedicated employee of 20 years to injuries sustained in a motorcycle accident on his way to work. Brad was an “all ‘round” patroller. From snowmaking, grooming, patrolling on skis or a board, lift evacuation skills, and as a meticulous carpenter, he will be missed. Brad joined the Snowshoe patrol in 1982. He became a certified patroller # 344 in 1991, and went on to become the area’s—and division’s—first dually certified skier/boarder in 1998. In 1998 he was appointed Assistant Manager of Snowshoe Patrol. Brad participated in all levels of training and evaluations as an alpine and snowboard toboggan instructor. He was a wonderful and patient mentor, from whom all patrollers learned from his daily activities. He found the best in everyone and was slow to criticize. Brad was pro-active in skier safety and guest relations. He was there to lend a hand whenever needed with a smile. His boots will never be filled by anyone as unique.

*Everywhere I go, every smile I see,  
I know you are there, smiling back at me.  
Dancing in the moonlight, I know you are free,  
Cause’ I can see your star shining down on me.*

In light of Brad’s dedication to the Southern Division Certified Program a Memorial Fund has been created. This fund will be used as a scholarship program for new Certified Program Candidates. While some details are yet to be finalized we expect to have approximately \$300 per candidate available for the three years they are in the program (dispersed at a rate of \$100/year). Interested individuals would go through an application process after pre-requisites are met. For more information on the Brad Short Memorial Fund please contact Jan Starr, Snowshoe Mountain Resort or Leslie Carter, Certified Program Supervisor.

*Submitted by Jan Starr and Leslie Carter*

Bluegrass recording artist Mike Morningstar performed at the memorial service for Brad Short at the top of Cup Run, Snowshoe.

## Scenes of the Season...

(To view Photo Album, click any picture on this page.)

Division Director Neil Booth presents the Yellow Merit Star to 1st Assistant Division Director Morgan Armstrong, for Division Outstanding Instructor for 2002-2003. (August 2003)

It's official. Larry Bost (Hawksnest) now has enough Yellow Merit Stars to wallpaper a gymnasium.

Hawksnest patroller Teresa Varner receives a Yellow Merit Star at the Fall Officers Meeting, Wytheville, Virginia.

DD Neil Booth presents Wintergreen patroller and Division Student Program Advisor William "T" Harris with the Yellow Merit Star for Southern Division Outstanding Alpine Patroller, 2002-2003.

DD Neil Booth congratulates Dennis Slagle on his Yellow Merit Star as Outstanding Administrative Patroller.

Certified patrollers Brandon Dean, Jan Star, Melinda Souder with Wintergreen patroller John Dobson.
